

HOW IT WORKS

This workbook uses spaced repetition to help you learn, review, and retain words—efficiently and effectively.

01

NEW WORDS

Learn 5 carefully selected high-level words each day with clear definitions and examples.

02

24H RECALL

Review words after 1 day to strengthen your short-term memory.

03

7-DAY REVIEW

Review again after 7 days to reinforce long-term retention.

04

30-DAY MASTERY

Final review after 30 days to lock words into your long-term memory.

THE SCIENCE OF MEMORY

Spaced repetition is a scientifically proven learning technique that optimizes recall by reviewing information at increasing intervals. This method strengthens neural connections and dramatically improves long-term retention—helping you remember more, for longer, with less effort.
